

# Hybrid Container Management with Google Anthos Strategy Workshop

Build an actionable roadmap to successful cloud adoption.

## About this workshop

To drive successful cloud adoption, deploying and managing solutions across multiple clouds is critical — but it can be overwhelming even for the most seasoned IT professionals.

Through our Google Anthos Strategy Workshop, Insight's cloud experts will help your team realize the benefits of Google Anthos for managing assets across clouds and data centers. Our approach focuses on understanding your business objectives, then working together to create a baseline and set of goals to optimize your hybrid cloud strategy. We'll cover a variety of topics including logging, monitoring, CI/CD and security, as well as how Anthos can integrate into your existing systems.

## Who should attend

C-suite business and technical decision makers will gain a deeper understanding of how Google Anthos can help them achieve their cloud strategy and enablement objectives.

## Preparing for transformation

To ensure you receive the greatest value from this workshop, you'll need:

- Participation from a group of five to 10 business leaders looking for change (CEO, CIO, CTO, CMO or other business technology leaders)
- Participation from leaders responsible for designing and architecting your enterprise IT systems and solutions
- Participation from engineering leaders who understand the infrastructure and licensing costs that factor into on-premises versus cloud economics
- A culture of cloud agility

## Workshop topics

During this workshop, we'll cover a wide range of topics, including:

- How Anthos can help achieve hybrid cloud strategy and enablement objectives
- Defining actionable goals to address challenges and opportunities in your current hybrid cloud approach
- Formulating a targeted new hybrid cloud strategy and enablement plan
- Aligning your goals and objectives with Google and industry best practices

### Duration

One day

### Benefits

- **Identify workloads** that can benefit from the Anthos platform.
- **Evaluate and optimize** your current and future hybrid cloud strategy.
- **Prioritize initiatives** that drive your hybrid cloud strategy.
- **Build a foundation** for your business's technical needs.
